BE AFRAID KETTLE, BE VERY AFRAID

The UK's No.1 for taps now offers
a Boiling Water 3-in-1 option.

7 TEMPERATURE SETTINGS

Why make do with one temperature? Our Rapid 3-in-1 delivers 7, so users get exactly the temperature they need. Choose from 75°C, 85°C, 90°C, 95°C, 96°C, 97°C or 98°C.

INCREASE YOUR WORKSPACE

Get rid of the kettle and lose more kitchen clutter. Or at the very least create space for something more useful.

COOL TO THE TOUCH

No chance of our tap getting too hot. All boiling water is stored in the tank, not the tap, so the spout stays cool.

SAFE TO USE

Kettles are heavy when full. Plus they can splash and splutter. Getting boiling water from the Rapid 3-in-1 is perfectly safe - simply push a button then turn the dedicated handle.

QUICK & QUIET

Boiling water is available from its 2.4-litre tank almost instantly. And because it isn't boiling from cold, it's quieter too.

BRISTAN
TAPS & SHOWERS

RAPID 3 IN 1 BOILING WATER TAP

332.50

**TAP INTO
THIS KILLER
OPPORTUNITY**

**THE
MULTI-
TASKER**

Our Rapid 4-in-1 Boiling Water Tap could be the end of kettles, bottled water, and water filters.

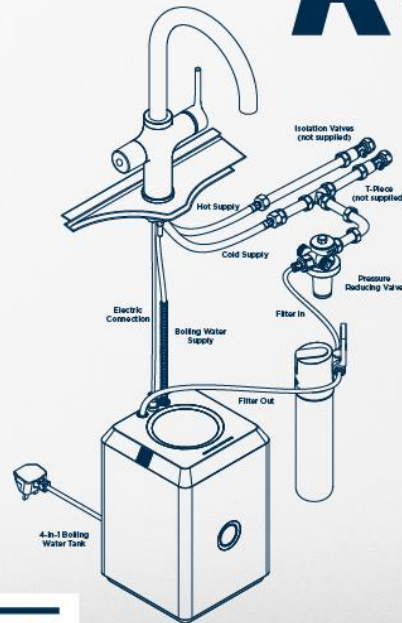

BRISTAN

BRISTAN

Rapid 4 in 1

Boiling Water Tap

**Easy
To
Install**

RIGOROUSLY TESTED

Our instant boiling water tap has undergone extensive lifecycle testing, both by our UKAS 17025 accredited test lab and consumer user trials, so we believe in every component.

EASY TO INSTALL

The Rapid 4 in-1 Boiling Water Tap can be installed with minimal fuss. The tap will replace any existing tap hole and the accompanying tank is compact enough to fit underneath most kitchen worktops.

ALL IN ONE NEAT BOX

You'll like the fact that everything you need to install the Rapid 4-in-1 Boiling Water Tap in one, neat box. While your customers will appreciate the adjustable temperature settings and built-in Pressure Reducing Valve (PRV) for safety.

UNIQUE FILTER SYSTEM

With the simple touch of a button, fresh, purer tasting water is dispensed; with calcium, magnesium and other impurities being removed by the space-saving filter cartridge located under the sink.
