Greenstar Intelligent Filling System 7738112911

44.00*

GREENSTAR INTELLIGENT FILLING SYSTEM

If the system pressure becomes low, this revolutionary software allows the internal filling valve to automatically fill the heating system. Once optimum pressure has been reached it will automatically stop and close the integrated filling valve.

The Greenstar Intelligent Filling System will recognise a significant leak in the system and prevent the boiler from over-filling. The boiler will alert your customer if the heating system is losing too much pressure, reducing the need for pressure-related call outs.

BASIN FIXING KIT FOR
PLASTERBOARD & SOLID WALLS**

SinkFix Adjustable BasinFixing Plate **19.99**

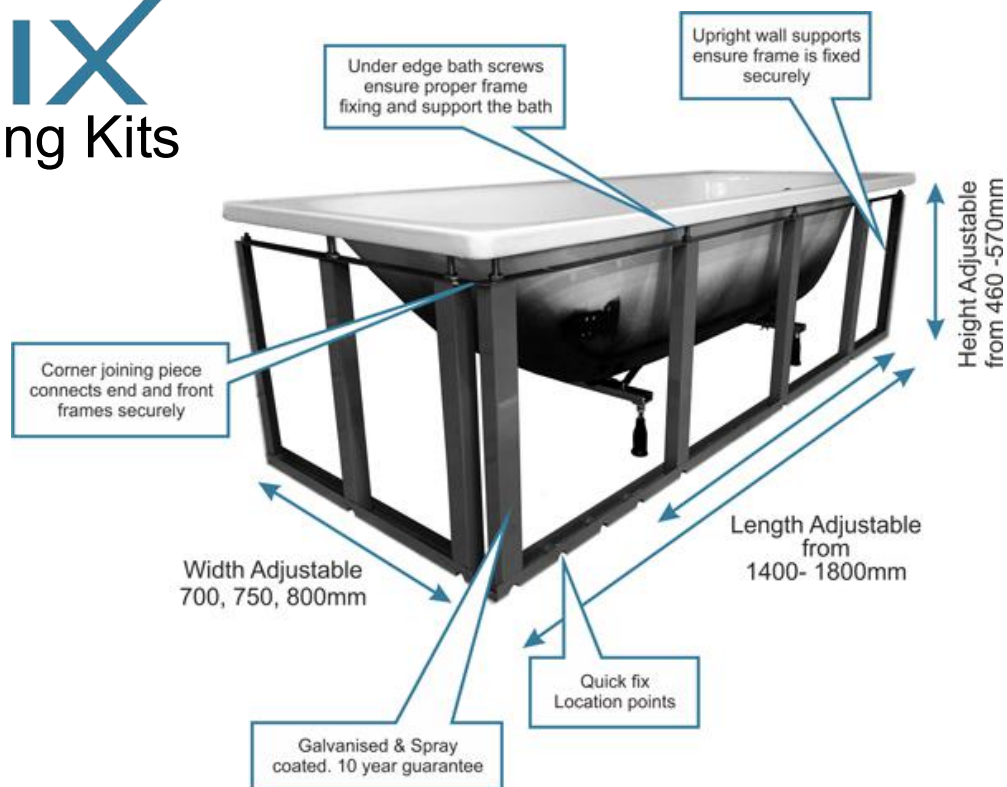

The modern choice for Professional Installers

- Fully Adjustable from 100mm-300mm M10 Fixing Bolts to Align with the Majority of Wash Basin Fixing Distances
- Large enough to Spread the Load, Small enough to be Covered by even the Slimmest of Wash Basins
- The Height Installation can be Fine Tuned, as can the Horizontal Level
- The Whole Wash Basin can be Moved, Left or Right if necessary
- Excellent for Stud Walls or where your Wall is of Poor Quality
- 15qty, 6mm Countersunk Multiple Fixing Points
- 55mm Length Bolts as Standard. 120mm Optional for Deep Installation

TubFix™

Bath Frame Fixing Kits

Front Panel Frame Kit 1400-1800mm

33.32

End Panel Frame Kit 700-800mm

19.99

IMPORTANT

Please check your bath leg fixings before framework installation

TubFix™ Bath frames fit 90% of standard rectangular baths on the market, however certain types of bath legs may interfere with the framework depending on the lip size of your bath.

The most ideal leg fixings for the framework are those under the bath as shown in **Fig 1.** and **Fig.2.**

Fig 3 shows legs from Ideal Standard, they have removable side fixings that are not necessary if using our TubFix™ frame.

Fig 4 shows the all in one leg form which depending on the size of the bath lip could possibly get in the way of the framework installation. The bath lip needs to be a minimum 50mm in front of the side leg fixing in order for the frame to fit and to allow a maximum 20mm for the bath panel/tile finish.

SPECIAL OFFERS 1st to 31st October 2019 - all prices shown are excluding VAT

SANISUITE®

INTRODUCING OUR "BUDGET" MACERATOR.

Why choose this product?

- Can deal with the waste from
 - WC
 - Basin
 - Bidet
 - Shower
- All-in-one bathroom solution
- Two-year warranty
- Installs with 32mm pipework

Sanisuite must
be installed with
32mm pipework.

It will **not**
replace a machine
installed with
22mm pipework.

Vertical/horizontal performance
